

Your Risk Management Advantage

STRENGTHENING WORKFORCE INTEGRITY

Smarter hiring, responsible sourcing, and child labor risk mitigation in the U.S.

An integrated suite of solutions developed by LRQA to help businesses verify, manage, and remediate workforce risks—before they escalate.

Dignia

Empowering workers. Risk made clear. Action made possible.

TriAge

A smarter standard for hiring practices, age & eligibility verification.

vSAQ

Fit for purpose verified self assessments (vendor and service provider) that drive smarter, risk-informed sourcing

Our partners and industry have developed a range of supporting tools and frameworks to strengthen due diligence, improve workforce oversight, and enable effective, rights-aligned remediation.

E-Learning: Child Labor
and Forced Labor in U.S.
Manufacturing

TriAge

U.S. employers must verify age and eligibility, but risks remain. The TriAge Framework, developed by LRQA with Fragomen Law and Fortney Scott Attorneys, strengthens verification and controls beyond basic I-9 compliance, with optional third-party validation.

Dignia

Developed in collaboration with **Amazon**, **The Walt Disney Company** and leading NGO's - including Cierto and The Centre for Child Rights and Business - Dignia combines **confidential worker reporting**, **expert remediation support**, and **real-time data insights** to drive transparency, accountability, and measurable impact.

Verified Vendor and Service Provider SAQ's

LRQA's suite of Verified Responsible Sourcing Self-Assessment tools (vSAQ) is designed to **help organizations strengthen supplier oversight** through a flexible, **fit-for-purpose approach tailored** to different partner types—including facilities, service providers, and vendors.

Third Party Workforce Vetting Toolkit

Developed by AIM-Progress and LRQA to equip companies with practical checklists and guidance to **strengthen due diligence**, **promote responsible sourcing**, and **enhance transparency** across workforce providers.

Stakeholder Engagement Report

A Stakeholder Engagement Report, developed by AIM-Progress and The Centre for Child Rights and Business, **maps local partners supporting remediation** in key U.S. regions, highlights service gaps, and helps businesses build **effective, rights-aligned** remediation networks.

U.S. Child Labor Remediation Framework

Developed by AIM-Progress and The Centre for Child Rights and Business, **provides a practical, rights-based roadmap for remediation**—covering response, case management, and long-term follow-up, supported by a directory of national organizations.

Responding to Child and Forced Labor in U.S. Manufacturing

This e-learning course helps U.S. manufacturing companies **identify, address, and prevent** child labor and forced labor through four modules featuring real-world case studies.
