

Your Risk Management
Advantage

U.S. DUE DILIGENCE IN RESPONSIBLE SOURCING

Strengthen your approach to **identifying, managing, and mitigating labor risks** across your workforce and supply chain. LRQA has developed a network of solutions, curated to solve your most critical challenges.

DIGNIA

Empowering workers. Protecting business. Action made possible.

Worker voice and grievance mechanism

TRIAGE

A smarter standard for responsible hiring practices.

Age and eligibility verification framework

vSAQ

Enhancing supplier transparency and proactive risk management.

Verified Responsible Sourcing Self-Assessment

EiQ RISK DATA

Adapting to the new realities of U.S. supply chain risk.

Real time state-level insights on supply chain risks

TriAge

U.S. employers must verify age and eligibility, but risks remain. The TriAge Framework, **developed by LRQA with Fragomen Law and Fortney Scott Attorneys**, strengthens verification and controls beyond basic I-9 compliance, with optional third-party validation.

Dignia

Developed in collaboration with major retailers and leading NGO's - including Cierto and The Centre for Child Rights and Business - Dignia combines **confidential worker reporting, expert remediation support**, and **real-time data insights** to drive transparency, accountability, and measurable impact.

EiQ State Level Risk Data

EiQ delivers the intelligence businesses need to stay ahead of supply chain risk. By integrating audit data with external risk indicators and analytics, it provides a clearer, more dynamic view of risk—helping organisations prioritise action, strengthen supplier performance and build long-term resilience.

Verified Vendor and Service Provider SAQ's

LRQA's suite of Verified Responsible Sourcing Self-Assessment tools (vSAQ) is designed to **help organizations strengthen supplier oversight** through a flexible, **fit-for-purpose approach tailored** to different partner types —including facilities, service providers, and vendors.

Third Party Workforce Vetting Toolkit

Developed by AIM-Progress and LRQA to equip companies with practical checklists and guidance to **strengthen due diligence, promote responsible sourcing, and enhance transparency** across workforce providers.

Our partners and industry have developed a range of supporting tools and frameworks to strengthen due diligence, improve workforce oversight, and enable effective, rights-aligned remediation.

Stakeholder Engagement Report

THE CENTRE FOR CHILD RIGHTS AND BUSINESS  AIMprogress

A Stakeholder Engagement Report, developed by AIM-Progress and The Centre for Child Rights and Business, **maps local partners supporting remediation** in key U.S. regions, highlights service gaps, and helps businesses build **effective, rights-aligned** remediation networks.

U.S. Child Labor Remediation Framework

THE CENTRE FOR CHILD RIGHTS AND BUSINESS  AIMprogress

Developed by AIM-Progress and The Centre for Child Rights and Business, **provides a practical, rights-based roadmap for remediation**—covering response, case management, and long-term follow-up, supported by a directory of national organizations.

Responding to Child and Forced Labor in U.S. Manufacturing

 Verité  AIMprogress

This e-learning course helps U.S. manufacturing companies **identify, address, and prevent** child labor and forced labor through four modules featuring real-world case studies.
