CHALLENGING CYBER RISK LANDSCAPE

Where threats are evolving in speed, scale and sophistication

64%

of CEOs say cyber risk is the #1 threat to their organisation's growth.

PwC CEO Survey, 2024

85%

of organisations globally reported experiencing at least one cyberattack

Cyber Threat Defence Report, 2023

45%

by 2025, of global organisations will have experienced a supply-chain attack.

Gartner, 2024

204

days is the meantime it takes defenders to identify and contain a breach

IBM, 2024

48

minutes is the average time an adversary now takes to move laterally - speed is their greatest weapon CrowdStrike, 2025

93%

of security leaders expect daily AI attacks by end of 2025.

Trend Micro, 2025

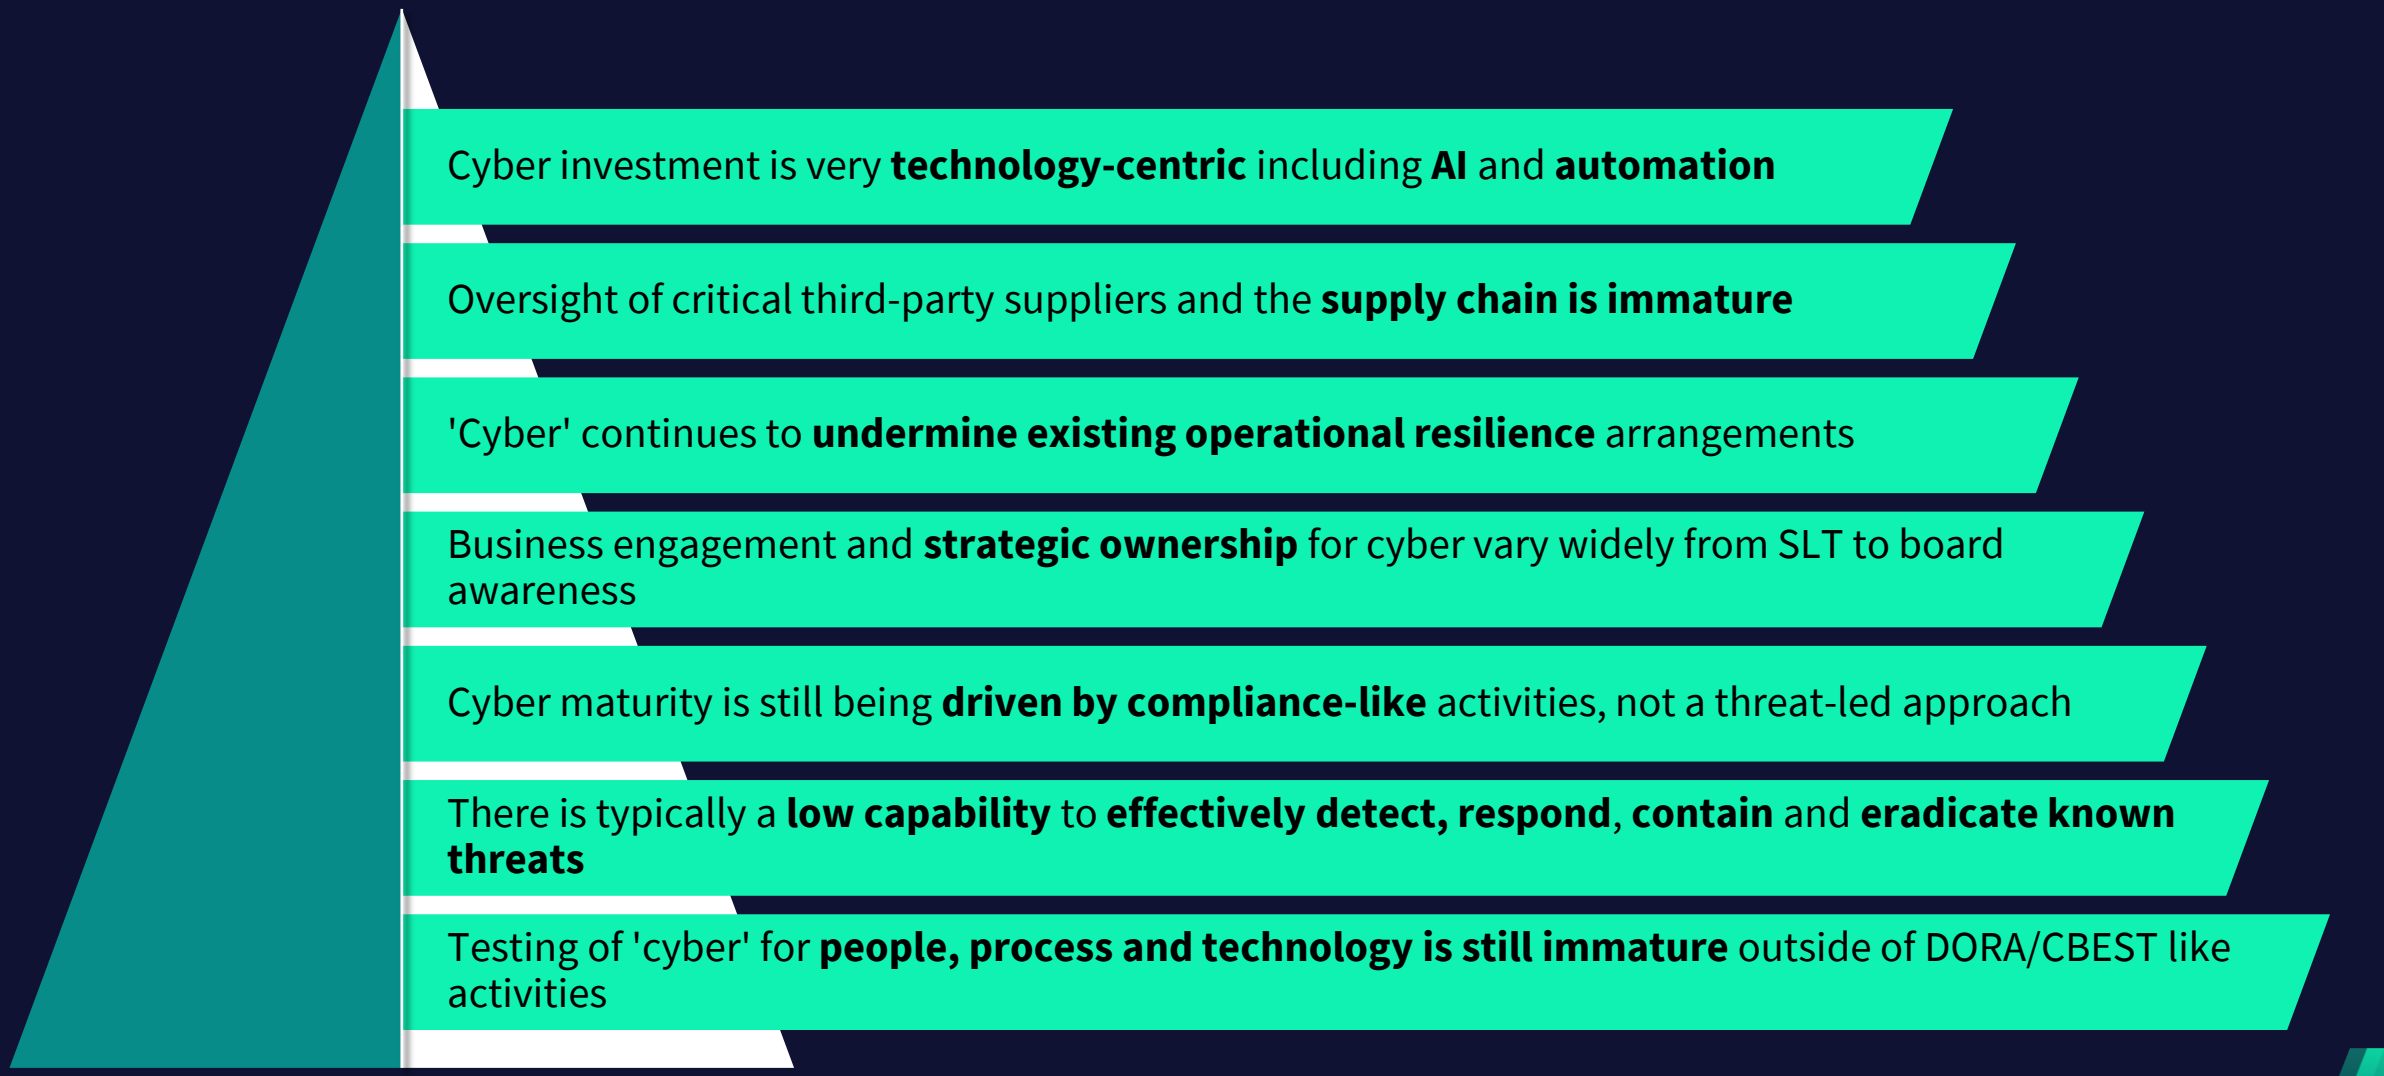
WHY CYBER ASSURANCE NEEDS TO EVOLVE



LRQA

LEADERSHIP SERIES

BENEFITS TO THE ORGANISATION

Increased resilience

Organisations will be better equipped to withstand and recover from digital disruptions or cyber attacks.

Improved competitiveness

Enhanced operational resilience can boost customer trust and market confidence.

Regulatory convergence

Regulators are promoting a harmonised approach to operational resilience across multiple regulatory landscapes.

Risk reduction

By identifying vulnerabilities proactively, this reduces the likelihood of costly breaches, regulatory fines, and reputational damage.

THE BREACH MINDSET: PERCEPTION VS REALITY

Optimism bias paradigm

What organisations think their defence looks like

A unified, comprehensive security programme with seamless coverage and minimal blind spots.

The actual reality

Divided security controls with coverage gaps, untreated risks, supply chains, blind spots, shadow IT and uneven implementations across the enterprise.

LRQA CYBER ROADMAP

Outcomes that matter to you

Platform-First Experience

Deliver client engagement through MyLRQA and digital portals, designed to be seamless, connected, and low-friction.

Clients gain faster access to insights and services, with a single entry point that streamlines how they interact with us, track progress, and realise measurable outcomes.

Always-On Assurance

Move beyond point-in-time checks to continuous visibility and protection. Threats are proactively identified and mitigated, giving clients daily confidence in risk management.

AI-Enabled Service Delivery

Harness AI across testing, SOC, and reporting to improve speed, accuracy, and scale.

Clients see faster risk detection, clear proof of impact, and validated fixes.

Market-Ready Threat Intelligence Comms

Deliver real-time bulletins, whitepapers, and alerts led by TI specialists.

Clients stay ahead of emerging threats with clear, actionable intelligence.

Deep CrowdStrike & Microsoft Partnership Integration

Identify weaknesses against ransomware, malware, and third-party attacks

Address emergence of disruptive trends – AI and machine learning

Threat-Led Approach

Leverage our world-class red teaming and offensive security expertise to shape our approach to our solutions.

AGENDA

09:40	**How AI is rewriting the rules of cyber warfare** Bobby Spooner, Principal Security Consultant - Attack Manager, LRQA
09:40	**The sourdough of trust** Javvad Malik, Lead Security Awareness Advocate, KnowBe4
10:30	**From detection to resilience: Beyond the SOC to true crisis readiness** Jamie Roderick, Vice President, Detect and Respond, LRQA
10:30	**Lessons in securing IT/OT from third-party data** Stefan Liversidge, Lead Solutions Engineer, OPSWAT
11:10	**Break and networking in the exhibition space**
12:00	**CISO Perspectives: Navigating risk, pressure, and uncertainty** Panel discussion
12:00	**2025 Threat landscape & intelligence applications in incident response** Tim Bobak, Head of Global Alliances, Group IB
12:40	**Lunch and networking in the exhibition space**
14:00	**Tech and cyber meet human rights** Steve Gibbons, Head of Advisory UKI, LRQA
14:00	**Inside the CrowdStrike 2025 Threat Hunting Report** John Spencer, Director, Sales Engineering – Northern Europe, CrowdStrike
14:50	**Retail under siege: Critical lessons from recent cyber attacks** Faye Greenslade, Lead Threat Intelligence Analyst , LRQA
14:50	**From policy to practice: Mastering data security compliance** Ketan Pyne, Pre-Sales Consultant, Thales
15:40	**Dr. Strangecode or how I learned to stop worrying and love ISO 42001** Giles Hamlin, Head of Governance, Risk and Compliance, LRQA
15:40	**Beyond the annual pen test: Building a continuous security assurance framework** Tom Wedgbury, Managing Principal Security Consultant, LRQA and David Parsons, Managing Principal Security Consultant, LRQA
16:30	**Drinks reception in the exhibition space**
