

Learning Pathways

A smarter approach to training

What is Learning Pathways?

The training market is ever-expanding, with courses and new learning styles more accessible than ever before, but how do you know which courses are best suited for you and your business?

Introducing Learning Pathways by LRQA, a smarter approach to training.

LRQA's Learning Pathways is a training plan designed to help you enhance your skills and progress in your chosen area by grouping complementary training modules.

Why choose Learning Pathways?

Simplicity

Our globally-recognised training courses are available to purchase individually, however, if you're not sure where to start, our pathways have been curated to reduce the time you spend browsing. Our Learning Pathways are available to purchase and book online.

Pay-as-you-go

Our Learning Pathways are based on a pay-as-you-go model, allowing you to spread the cost.

Enhanced learning

Our experts carefully selected complementary courses that are designed, together, to take your learning to a new level and reach your goals faster.

Flexible delivery

Our pathways are available in a remote or blended capacity. If you opt for our remote delivery methods, you'll receive the same high-quality service with several added benefits, including flexibility, fast delivery, and access to global expertise.

Why work with us?

Global capability

We're everywhere you are. With more than 300 highly qualified auditors and 250 dedicated cybersecurity specialists worldwide, we can provide a local service with a globally consistent dedication to excellence. Our people are technical experts with in-depth knowledge of information and cybersecurity risks, challenges, standards, regulations, and frameworks.

Total assurance

We've led the way in shaping our industry and continue to expand our services and expertise by collaborating with clients, acquiring businesses and forming new partnerships. The result is a unique and connected portfolio of services that can help you assure your assets and management systems, ensure complete cyber resilience and product integrity, navigate the energy transition, and source responsibly.

About LRQA:

By bringing together unrivalled expertise in certification, brand assurance, cybersecurity, inspection and training, we've become a leading global assurance provider.

We're proud of our heritage, but it's who we are today that really matters, because that's what shapes how we partner with our clients tomorrow. By combining strong values, decades of experience in risk management and mitigation, and a keen focus on the future, we're here to support our clients as they build safer, more secure, more sustainable businesses.

From independent auditing, certification and training; to technical advisory services; to real-time assurance technology; to data-driven supply chain transformation, our innovative end-to-end solutions help our clients negotiate a rapidly changing risk landscape – making sure they're shaping their own future, rather than letting it shape them.
