

Three reasons to choose remote audits

Learn more at lrqa.com

Fast & Flexible

- Audit dates can be agreed and delivered quickly, minimising any potential on-site disruption.
- Increased access to technical experts globally, with multiple stakeholder participation now possible.

The auditors were brilliant - flexible with terms of reference and timings to speak to people in the business.”

Nadine Morrison
QHSE Lead, PDMS Group

Safe & Sustainable

- Reduced health and safety risks for people travelling to hazardous or hard to reach locations.
- Less travel means a smaller carbon footprint and a more environmentally friendly delivery method.

It was more sustainable and saved more time by limiting the amount I needed to travel.”

Marek Mamak
Quality & Compliance, Yusen Logistics (Poland)

Excellence & Expertise

- Audit outcomes and accredited certification are maintained by robust processes and technical expertise.
- Delivered through secure, easy-to-use, online platforms to protect your information and the integrity of the audit.

The remoteness did not detract from the level or depth of auditing delivered. It felt much like any other audit.”

Carol Sparkes
Process Assurance Consultant, Comms-care Ltd
