Courses for varying levels of experience

Our range of training courses are developed and delivered by technical experts, who provide you with unique industry insight.

They use real experiences and practical models to ensure that everything you learn can be transferred back into the workplace.

Our courses are structured to accommodate a variety of participants. We offer foundation, practitioner and professional level training for those that work with management systems, or carry out inspections on equipment and assets.

Dedicated to professional excellence

We provide high-quality training and development solutions to suit your personal and organizational needs.

Many of our courses are approved by external bodies, to support your professional development and help you increase your credibility.

Our partnerships include:

BRES Approved Training Partner

Why choose training from LRQA?

Our approach is flexible-by-design, offering a wide range of courses in multiple learning styles – optimizing each delegate's experience based on what works best for them. We also build fully customized training programs designed to meet the unique requirements of your people and business.

Whether delivered in-person, online or through a blended approach, our expert tutors cater for all experience levels, providing courses centered around interaction and real-life case studies. We provide the knowledge, insight and skills your people need to implement best practices and pioneer new ideas – supporting their professional growth and your organization's improvement.
